

Today's economy demands adaptability. Wick helps builders expand their offerings into high-demand, lower-risk structures — like pole buildings, barndominiums and shouses — supported by powerful success tools and a full-service team behind every project.

Big Picture Solutions Help You Adapt, Simplify and Grow

Build More With Less

- Reduce materials & labor challenges
- Faster build times
- Lower materials requirements
- Greater flexibility when market conditions shift

Support That Lifts the Load

- We lighten your workload so you can focus on customers & jobsite
- Marketing and pre-sales tools
- Dedicated Business Development Manager
- Warranty & service support
- Streamlined communication from concept to completion

Grow with Confidence

- Easily expand your customer offerings
- Add pole buildings, barndos, shouses and more
- Offer options less affected by materials & labor volatility
- Tap into demand for multi-use investment structures

BUILD IT! 3D

Design & Engineering Power

- Our software + engineering team = limitless capability
- Design any structure that can be built with wood
- Access robust architectural, structural & code support
- Speed up pre-construction planning with accurate outputs

Single-Sourced. Streamlined. Simple.

- One supplier for an enclosed, weather-tight building package
- No chasing vendors
- No juggling supply chains
- No costly delays

Top-notch quality + business-building tools + unmatched convenience = Wick

We help builders succeed, no matter the economy.
