LESS WAITING. MORE BUILDING.

Wick Buildings℠

THE RIGHT TOOLS, PEOPLE AND PROCESSES HELP KEEP EVERY PROJECT MOVING.

From the first customer conversation to materials arriving at the jobsite, Wick helps builders spend less time managing the process and more time building.

FIVE WAYS WICK HELPS KEEP PROJECTS MOVING

#1 DESIGN & PRICE WITH CONFIDENCE

Build-IT! 3D, an innovative design and pricing tool, helps turn customer ideas into building concepts and estimates.

#2 ENGINEERING THAT WORKS FOR YOU

Dedicated designers and engineers develop project-specific plans and help address building requirements.

#3 MATERIALS READY FOR THE JOB

Engineered components and coordinated ordering and packaging help make construction more efficient.

#4 DELIVERY THAT KEEPS YOU MOVING

Coordinated jobsite delivery helps get the right materials where builders need them.

#5 SUPPORT EVERY STEP OF THE WAY

Business development, design and technical experts provide backup from sale through construction.

MORE TIME BUILDING. LESS TIME MANAGING THE PROCESS.

Wick brings the tools, materials and expertise together to help builders move projects forward.
